

LIVE THE BRAAI LIFE

PATIO & GARDEN RANGE 2018

THE HISTORY OF THE BRAAI

A full-page background image showing two men in a garden setting. One man, wearing a blue button-down shirt, is holding a glass of white wine and gesturing with his other hand towards a large stainless steel grill. The other man, wearing a plaid shirt and glasses, is looking at the grill. The grill is open, revealing various meats and vegetables cooking on the grates. The scene is set outdoors with lush green foliage in the background.

South Africa has a long braai history. The origins of the word braai is Afrikaans for barbecue or grill and originates from early Dutch settlers who sailed to Cape Town a few centuries ago.

A South African braai is more than just your standard barbecue. Encompassing flavoursome food and great company, a braai is an occasion; a celebration of outdoor life! We invite you to come and 'Live The Braai Life!' with us at Cadac.
